

# omniinsights

 SGRT Analytics

for **research**  
and insight

## POPULATION-BASED SGRT ANALYSIS PLATFORM

Omni Insights enables **import and analysis of surface-guided radiotherapy (SGRT) tracking data** from multiple systems.

### What it does

- Imports SGRT data from 3rd party systems
- Consolidates multi-patient datasets
- Enables population-based analysis
- Supports research evaluation
- Visualises motion and tracking trends

## DESIGNED FOR RESEARCH USE

Built to support **clinical research teams and institutions** exploring motion, treatment consistency, and workflow insights across patient populations.

### Multi-system compatibility

- Works with data from existing SGRT platforms
- Cross-platform data aggregation
- Standardised analysis workflows
- Longitudinal and comparative studies

Aggregate. Analyse. Understand →
